

## AGROSUN DAYSPOT GROWLIGHT INSTRUCTIONS

### **Parts:**

- Reflector.....x 1ea.
- Clamp arm socket.....x 1ea.
- Agrosun Dayspot grow light bulb.....x 1ea.  
(CFL 26w & 32w or incandescent 60w)

### **Assembly:**

1. Carefully remove the fixture from the box.
2. Center the reflector onto the clamp arm socket and thread it on to secure it in place.
3. Using the clamp arm, attach the fixture in a desired location to a secure base above your plant canopies.
4. Point the reflector in the desired direction and tighten the wing nut on the clamp arm to secure the position.

### **SPECIAL NOTES AND INSTRUCTIONS:**

- *This fixture should be mounted at a safe distance from plants to prevent burning and provide adequate coverage.*
- *Plug this fixture into a 120v outlet only*
- *Do not use a dimmer with this product*
- *Avoid contact with water to prevent damage and risk of electric shock*
